

# Mouse House

## Supplies:

One small notebook  
1 foam sponge  
Velcro  
Hot glue gun  
Hot glue stick  
Black magic marker  
1 computer mouse

## Instructions:

1. If notebook has photo pages, remove them.
2. Cut sponge in half.
3. Trace contour of mouse onto each half of sponge. Cut sponge on line.
4. Place mouse in notebook angled with cord angled to back of notebook.

5. Place sponge halves on either side of mouse.
6. Lift mouse out and mark outline on bottom of notebook where mouse is layed.
7. Glue sponge to notebook

8. Place mouse inside sponges and close notebook. Measure length of space between top of notebook and mouse. Cut glue stick to that length and. Glue to top of notebook. You may use Velcro if you want to make your mouse house adaptable to use with another computer mouse,

9. Use Velcro or a ribbon to tie your mouse house closed. This will keep the top from opening.
10. Placing a communication symbol on top of the mouse house will add interest and vocabulary exposure.
